

RAYS OF LIGHT
THE INTRICATE CERAMIC ART OF

KISHI EIKO

JOAN B MIRVISS LTD

"First inspired by the coloration of an insect's patterned wings and then by the texture of mineral crystalizations in rock, I was led to carve linear designs and paint onto my geometric forms. The bodies of my sculptures are created from clay that is infused with shards of granite and mixed with ten different colors of chamotte. My current *Nôkata* series focuses on the traditional Nô dance form with its inherent tension between tranquility and vibrant energy."
